

Instrumentation cables to BS5308

APPLICATION

These cables are designed to connect electrical instrument circuits and provide communication services for fixed applications in and around process plants (e.g. petrochemical industry etc). (Not suitable for direct burial applications)

Specifications

- BS 5308 Part 1, Type 1 & 2 (Type 1, non-armored, Type 2, armored)
Conductors: Class 2, Class 5 copper conductor to BS6360
Insulation: PE to BS6234
Outer Sheath: PVC to BS7355
- BS 5308 Part 2, Type 1 & 2
Conductors: Class 2, Class 5 copper conductor to BS6360
Insulation: PVC to BS 7655
Outer Sheath: PVC to BS 7655
- Flame retardant to BS4066 / IEC60332 Part 3 Category C (NMV1.5)
- **Voltage Rating:** 300/500V
- **Temp Rating:** 65 degrees C max conductor operating temperature
