

Armored Power and Control Cables to BS6724

600/1000V

APPLICATION

LSZH armored cables for use in fixed installations for use indoor, outdoor or for direct burial. Especially for use in areas where fire would create dense smoke and toxic fumes causing a major threat to life and equipment

Specifications

- In accordance with BS6724
- **Conductor:** Stranded (Class 2) copper conductors to BS6360.
- **Insulation:** XLPE Insulation Type GP8 to BS7655
- **Inner Sheath:** LSZH
- **Armor:** SWA
- **Outer Sheath:** Black LSZH
- Flame retardant to BS4066 / IEC60332 Part 3 Category A.
- **Temp. Rating:** 90 degrees C max conductor operating temperature
- **Voltage Rating:** 600/1000V

Conductor identification:

Two Core - Brown, Blue

Three Core - Brown, Black & Grey (Optional: Brown, Blue & Green/Yellow)

Four Core - Brown, Black, Grey & Blue (Optional: Brown, Black, Grey & Green/Yellow)

Five Core - Numbered Cores (Optional: Brown, Black, Grey, Blue + Green/Yellow)

Six Core and Above - Numbered Cores (optional numbered + Green and Yellow)
