

## **Type TC-LS Power & Control Cable**

600V UL Type TC-LS, 90C, XLP Insulation, LSZH Jacket

### **APPLICATION**

Low smoke, zero halogen cable is for use in power, control and lighting circuits in a broad range of industrial applications. Jacket is highly flame-retardant, produces very small amounts of smoke when burned and contains no halogens. It may be installed in Class I, Division 2 hazardous locations.

### **Specifications**

- **Conductor:** Soft bare annealed copper
- **Insulation:** XLPE
- **Jacket:** Sunlight resistant and flame retardant, LSZH Polyolefin per UL1277.

This is just one type of tray cable that can be used in Division 2 and Class & Zone 2 areas. Please contact Ex Industries for more information.
